

# Rail Wheel 300 SFTK 75

Rail wheels Series SFT

 -30 °C - +350 °C\*

  
swivels easily

  
wear resistant

  
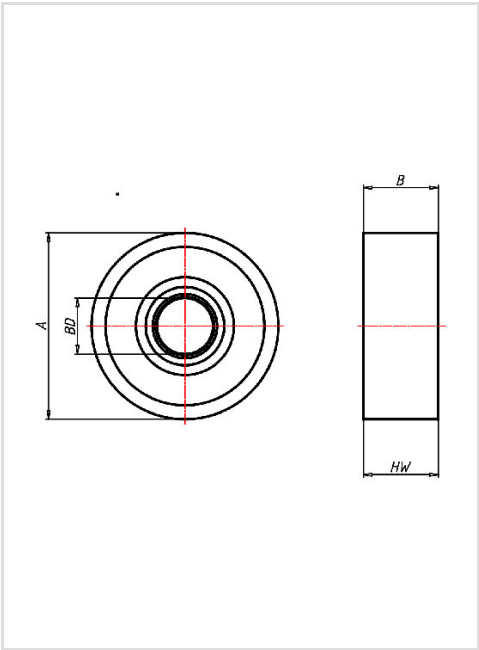

shock proof

  
floor protective

  
weather proof

## Wheel

Rail wheel - steel BS 970 tread properly machined

|                                                         |                                   |
|---------------------------------------------------------|-----------------------------------|
| Rail Wheel                                              | Wheel-Ø A x width B mm: 300 x 100 |
| Load Capacity kg:                                       | 14680                             |
| Load capacity tested according to EN 12530 and EN 12527 |                                   |
| Hub width mm:                                           | 100                               |
| Wheel bearing:                                          | Ball bearing                      |
| Bore diameter mm:                                       | 75                                |

## Advantages

- ✓ very high load capacity
- ✓ excellent abrasion resistance
- ✓ for high temperatures
