shock proof

++●

floor protective

++●

weather proof

Wheel

Typ 4
TLCMR/L, Lever right or left, pressed steel zinc plated,
Footpads: Ø 75 mm

Fork

Truck locks provide a ready means of instantly securing a truck in a fixed position – but do not raise it – whilst allowing complete freedom of movement to be restored by a quick movement of the foot pedal. Both TLCH and TLCM are instantly released by slight downward pressure on the special trip lever provided. The operating force is moderate (and does not vary with the load), as the 'over-centre' linkage presses the rubber pad into firm contact without lifting the castors off the ground.

Truck Lock	
Extended height mm:	380
Retracted height mm:	350
Dimension of top plate TP mm:	165x115
Type:	4

Advantages

- ✔ High holding force
- ✔ Less effort with the long lever arm
- ✔ left or right lever
